Authorship Agreement Form¹

Guidelines for Behavioral and Biomedical Research

Initial agreement date:

Subsequent revision date(s) (attach to initial agreement):

ICMJE² recommends authorship be based on the following contributions:

1. Substantial contributions to conception and design of the work; or acquisition, analysis, and interpretation of data; **and**
2. Drafting the manuscript or revising it critically for important intellectual content; **and**
3. Final approval of the version to be published; **and**
4. Agreement to be accountable for all aspects of the work and ensuring that any questions regarding accuracy or integrity of the work are investigated and resolved.

All 4 conditions must be met for authorship to be granted. Acquisition of funding; data collection, management, or coding; or general supervision of the research group, by themselves, do not justify authorship.
